TECHNICAL SKILLS

- **Languages:** Python 3, Node.js, TypeScript, JavaScript, SQL
- **Databases & Cloud:** PostgreSQL, MongoDB, Redis, AWS (EC2, S3, Lambda), Docker
- **Architecture & Workflows:** Distributed Systems, REST APIs, WebSockets, Microservices, AI-Assisted Development

PROFESSIONAL EXPERIENCE

Senior Backend Engineer | Lagos, Nigeria | 2020 – Present

- Architected distributed financial and e-commerce backend systems in Python 3 and Node.js, processing secure transactional data and ensuring strict data integrity across microservices
- Integrated AI-assisted coding workflows into daily development cycles to accelerate feature delivery, while enforcing rigorous human code reviews on all concurrency models and access control layers
- Engineered event-driven data ingestion pipelines for a financial analytics platform (QuantCore.ai), utilizing WebSockets to replace REST polling and minimize latency for high-throughput market data
- Provisioned and monitored containerized backend environments across AWS utilizing Docker, decreasing monthly cloud hosting costs by 30% while maintaining 99.9% API uptime
- Designed relational database schemas and optimized complex queries in PostgreSQL, improving data retrieval efficiency for operational dashboards and client-facing endpoints
- Collaborated directly with B2B clients to translate abstract technical requirements into concrete architectural proposals and production-ready system plans

Technical Mentor & Educator | Lagos, Nigeria | 2021 – Present

- Mentored over 500 junior software engineers and technical beginners by breaking down complex distributed system architecture, Python backend development, and database design into accessible training modules
- Conducted code reviews and provided structural feedback to elevate cross-functional team standards regarding software reliability, testing, and system observability

PROJECTS & CONTRIBUTIONS

create-quadstack | *Open Source CLI Tool*

- Authored and published a Node.js command-line interface boilerplate package to the NPM registry to automate the configuration and deployment of scalable backend environments

EDUCATION

University of Lagos | Lagos, Nigeria Master of Science in Computer Science

Ekiti State University | Ado Ekiti, Nigeria Bachelor of Science in Computer Science Education
